Dear Mr. Stans:

I am returning the draft letter addressed to the Chairman of the House Appropriations Committee concerning the CIA budget for 1960. We have no question concerning the letter itself, but would propose the following tabulation in lieu of the tabulation included in your letter:

25X1

Appropriation
Unobligated balance brought forward ..
Recovery of prior obligations
Advances and reimbursement
Total obligational availability

Application of availability:
Total program, net
Contingency reserve
Total obligational availability

Total expenditures

This is based upon more recent developments and agrees with the material which we are preparing for submission to the Committee.

We will be glad to furnish you a copy of our House notes when they are complete.

Sincerely,

L. K. White
Deputy Director
